

RELATIONSHIP WITH NON-PUBLIC SCHOOLS

In recognition of its responsibility under state law and regulation the Board of Education shall make available required public school materials, equipment and services to resident students who attend non-public schools.

Textbook Loan

The Board is required to purchase and to loan, upon individual request, textbooks to all children residing in the district who are attending grades kindergarten through twelve in any public or non-public school which complies with the compulsory education law.

It is also understood that the textbooks must be "loaned free" to the children, but Boards may make reasonable rules and regulations regarding such loan(s).

Therefore, the following rules and regulations shall govern the loan of textbooks to residents of the district attending nonpublic schools:

1. The textbooks remain the property of the district.
2. The textbooks are returned at the end of the non-public school year.
3. If lost or destroyed, the textbooks shall be paid for in the same fashion as the students attending district schools.

Any such textbook must be designated for use in a public school of the state or approved by a board of education or other school authority. The district may require parents or nonpublic schools to submit evidence of this, which may be in the form of a verifiable authenticated list of school districts using the textbooks from the publisher. Textbooks must be nonsectarian in nature and may not carry the endorsement of a religious authority.

The district is not required to spend more than the total amount of textbook aid it receives, although it may provide for additional funds as part of its annual budget. If funding is inadequate to purchase all the books required, to ensure equitable distribution, the district will determine which categories of textbooks (e.g., type (such as consumable workbooks), subject areas, grade levels) may be loaned to both public and nonpublic students within the resources available.

The Superintendent will specify the date by which requests for textbooks must be received by the district and provide notice to all parents of resident students and administrators of those nonpublic schools attended by resident students (where

known) of that date. This date must not be earlier than June 1st; however, requests made within 30 days of enrollment in the nonpublic school, or those made after the deadline will not be denied if a reasonable explanation for the delay is given. Requests may be submitted directly by the parent, or via a combined request from the nonpublic school.

Instructional Computer Hardware and Software Loan

The Board is required to loan instructional computer hardware and software, upon request, to all pupils legally attending non-public elementary or secondary schools located in the school district. The district shall loan instructional computer hardware and software on an equitable basis, however software and hardware purchased with any local, federal or state funds, other than Instructional Computer Hardware or Software Aid funds, are not required to be loaned to nonpublic school students.

In addition, the district will only purchase and loan software programs that do not contain material of a religious nature.

The Superintendent will specify the date by which requests for instructional computer hardware and software must be received by the district and provide notice to all nonpublic schools located within the district of that date. This date must not be earlier than June 1st; however, requests made within 30 days of enrollment in the nonpublic school, or those made after the deadline will not be denied if a reasonable explanation for the delay is given

Library Materials

Library materials owned or acquired by the district are required to be made available on an equitable basis to students in grades K-12 attending nonpublic schools located within the district, where the materials are required for use as a learning aid in a particular class or program, and loaned for individual student use only, upon the individual request of a student or group of students. The request may be presented either directly to the district or via the administrator of the nonpublic school. Parents must guarantee the return of the materials, and must pay for the value of any loss and/or damages.

Health and Welfare Services

The district is required to provide, upon request of a nonpublic school, health and welfare services which are equivalent to those available to resident students attending the district's schools, to nonpublic school students who are district residents. For resident students attending a nonpublic school located outside the district's boundaries, the district will contract with the district where the nonpublic school is located to provide such services.

Transportation

The district will provide transportation to resident students attending nonpublic schools as required by law and outlined in policy 8413, Transportation for Nonpublic School Students.

Regulations

The Board authorizes the Superintendent of Schools to establish any and all rules, regulations and procedures necessary to implement and maintain this policy. No non-public school student will be provided with transportation and/or textbooks unless and until he/she has verified residency with the Bellmore-Merrick Central High School District's Central Registrar.
